Professional Summary

Full-Stack Developer skilled in the MERN stack, AI integration, and RESTful API design, with end-to-end experience from system architecture to cloud deployment. Built scalable fintech dashboards, HR platforms, and AI-powered interview systems using FastAPI, Gemini 2.0 Flash, and LangGraph.

Technical Skills

Languages: C++, Python, JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, Redux, Vite, Bootstrap, Material-UI, Responsive Design
Backend: Node.js, Express.js, FastAPI, REST API Development, JWT Authentication
Database: MongoDB, Mongoose, PostgreSQL, SQL, SQLAlchemy
AI/ML: Gemini 2.0 Flash, LangGraph, LLM Integration, NLP, Prompt Engineering
DevOps/Tools: Git, GitHub, VS Code, AWS Amplify, Vercel, Render, CI/CD
Core CS: Data Structures & Algorithms, OOP, Debugging, SDLC, Agile

Education

ABES Engineering College, Ghaziabad Sep 2024 – Sep 2027
B.Tech, Information Technology (CGPA: 7.5/10.0)

Experience

3Skill Feb 2026– Apr 2026
Data Analytics Intern Remote

- Analyzed complex datasets to extract actionable business insights, supporting data-driven decision-making and improving reporting efficiency by 20%.
- Delivered structured analytics reports and dashboards, collaborating with cross-functional teams to align analytics requirements with business objectives and stakeholder KPIs.

Projects

Employee Management System | React.js, Node.js, Express.js, MongoDB, JWT, REST API 2025

- Architected a full-stack HR platform with role-based access control (RBAC) for Admin, HR, and Employee tiers, securing 100% of endpoints with JWT authentication and authorization middleware.
- Engineered CRUD modules for payroll processing, leave management, and employee records, reducing manual HR processing overhead by 40% and improving data retrieval speed by 25% via optimized MongoDB queries.

Expense Tracker Dashboard | React.js, Redux, Node.js, Express.js, MongoDB, AWS Amplify, Vercel 2025

- Built a production-grade fintech dashboard enabling real-time expense tracking, category-wise analytics, and interactive data visualization with Redux state management and MongoDB aggregation pipelines.
- Deployed frontend on AWS Amplify and backend on Render with automated CI/CD pipelines, achieving 99% uptime, 20% faster page loads, and seamless zero-downtime deployments.

AI Interview Preparation Platform | React.js, FastAPI, Python, Gemini 2.0 Flash, PostgreSQL, LangGraph 2025

- Developed an AI-powered interview simulation platform using Gemini 2.0 Flash and LangGraph multi-agent orchestration, featuring real-time voice recognition (Web Speech API) and adaptive context-aware questioning.
- Engineered an ATS scoring engine with resume parsing (PyPDF) and job-description gap analysis, achieving 85% keyword-matching accuracy; architected scalable FastAPI backend with SQLAlchemy ORM, Alembic migrations, and JWT-secured endpoints.

Certifications

Introduction to Front End Development — Simplilearn (2025)
Python 101 for Data Science — Cognitive Class (2024)
The Career Advancement Bootcamp — Medha (2022)
